For more than 30 years, we have been developing robotic cleaning solutions for

Choose the highest performing robot for your pool

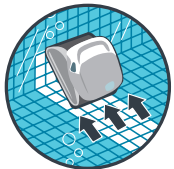

Enjoy an easy and relaxing pool cleaning experience.

Dolphin S robots are designed by Maytronics to do all the hard work – providing incredible cleaning performance and efficiency.

Navigational Intelligence System:

IntelliEscape to prevent getting stuck on drains, ladders, and other obstacles

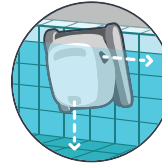

IntelliGrip All-surface traction control to detect and adapt to slippery surfaces for complete pool cleaning

IntelliSteer for maximum pool coverage while avoiding tangled cables

Superior pool cleaning made easy

PowerStream Mobility System - Enhanced Navigation

Multi-directional water flow ensures constant grip on vertical surfaces, for efficient cleaning along walls and waterline and enhanced navigation control.

Automation Mode

Pool cleaning made effortless with one touch automation set up. Your Dolphin will remember cleaning modes and cycle times between operations.

Multi-Layer Filtration System

Simultaneously separates and filters rough, fine and ultra-fine dirt, for highly efficient, clog-free filtration. Snaps apart for super-easy cleaning.

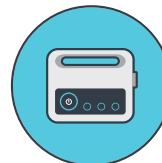

Easy and Quick Repair

This Dolphin is designed for fast fixes. Your dealer can repair and replace most parts without sending it to the factory, so you'll have your Dolphin back in next to no time.

Smart Phone App Control

My Dolphin app for convenient cleaning program setup and operating control from your smart phone.

Multi-Function Power Supply

Eco-friendly power supply with cycle cleaning and mode selection, start delay, with simple touch-screen control.
